

Spectrum™ Light Filters

see the light.....

By using
Spectrum™ light
filter products
we can give you
a product that
offers complete
“color correction,
glare reduction
and 100% UV
filtering”

INNOVATIVE IDEAS IN LIGHTING TECHNOLOGY

Spectrum™ Light Filter Advantages:

TRUE-TO-LIFE COLOR

- Spectrum™ Light Filters produce a natural, full spectrum light that reveals an objects true colors

LESS GLARE

- The glare on computer monitors caused by overhead fluorescent lighting is reduced when Spectrum™ Light Filters are used
- Cuts the glare at its source
- Reduced glare lessens eye strain and eye fatigue

NATURAL LIGHT

- Spectrum™ Light Filters make your fluorescent lighting appear more like natural light
- Mimics noontime daylight by bringing back the red portion of the spectrum and balances out the other colors

U.V. PROTECTION

- Blocks unhealthy ultraviolet (A and B) rays that are emitted by fluorescent light
- Prevents colors and textiles from fading and deteriorating under UV light from fluorescent lamps
- Like having 24 hour sun screen protection for your fluorescent lights

Typical office with fluorescent light installation

The same office after the installation of Spectrum™ Light Filters

Spectrum™ light filters

500 series tubes (sleeve)

S574-T8-4 foot

S574-T8-8 foot

S574-T12-4 foot

S574-T12-8 foot

- available in T8 and T12 diameters
- manufactured using a proprietary polymer substrate
- density - 574
- 24 tubes per case with end caps

700 series (sheets)

S774-4622

S574-4824

- available in two sheet sizes 48" (1219 mm) x 24" (609 mm) and 46½" (1181 mm) x 22½" (571 mm)
- manufactured using a proprietary polymer substrate
