# PlaneView

PlaneView is ideal for architects, engineers, anyone who needs to access and refer to large format documents. Free your workspace from large, awkward, or oversized documents, engineering drawings, and blueprints - hang them vertically with the PlaneView. Now you can work comfortably, placing your documents where you need them, and move them out of the way when not in use.

Features

• choose between clamp, grommet, wall, and slatwall mounting hardware
• simple to operate height adjustment lever
• height and angle adjustable
• 22" width, custom sizes may be available, contact customer service for more details
